

Joint Information Center – JIC Release No. 947
February 3, 2022, 6:55 p.m. (ChST)

**COVID-19 Test Results: 732 New Cases, 44 Hospitalized;
Sotrovimab Infusions Begin, Patient Referrals Required for Appointments;
Schedule Changes to COVID-19 Vaccination Clinic; Additional COVID-19 Updates**

44 Hospitalized for COVID-19

CENSUS as of 4 p.m.	GMH	GRMC	USNH	TOTAL
COVID-19 Admission	25	18	1	44
Pediatric Admissions	2	-	-	2
ICU	3	3	0	6
Ventilator	1	0	0	1

VACCINATION STATUS	VACCINATED	UNVACCINATED	INELIGIBLE (0-4 years old)
Hospitalized	26	16	2
Total in Population*	133,224	8,383	12,229
Rate per 100,000 Population	20	191	16

SPECIAL NOTE: Based on today's data, if we were to compare two (2) hypothetical populations of 100,000 people each, vaccinated versus unvaccinated, there would be 20 vaccinated people hospitalized for COVID-19 compared to 191 unvaccinated people hospitalized for COVID-19. The risk of being hospitalized for COVID-19 is about 10 times higher for the unvaccinated as compared to the vaccinated. *Estimated population is based on DPHSS Immunization Program analysis of 2020 Census data. Updates are expected pending further Census 2020 data breakdown.

COVID-19 Test Results: 732 New Cases of COVID-19

Today, the Department of Public Health and Social Services (DPHSS) reported **732** new cases of COVID-19 from **2,187** specimens analyzed on February 2, 2022. **60** of the cases reported today are through the Department of Defense. To date, there have been a total of **34,610** officially reported cases, **296** deaths, **6,659** cases in active isolation, and **27,565** not in active isolation.

Sotrovimab Infusions Begin, Patient Referrals Required for Appointments

DPHSS, in partnership with the Guam Regional Medical City (GRMC), has begun distribution of monoclonal antibodies (mAb) infusion of sotrovimab at GRMC. Sotrovimab was given emergency use authorization (EUA) by the U.S. Food and Drug Administration (FDA) for treatment of non-hospitalized patients with symptomatic COVID-19 who do not require supplemental oxygen and are at high risk for progression to severe COVID-19. Sotrovimab is currently the only mAb being offered at this time.

Patients who test positive for COVID-19 should consult with their physicians to determine whether they meet eligibility criteria for sotrovimab infusion. Providers must send patient referral information to the Sotrovimab Infusion Clinic at GRMC to schedule an appointment ahead of time. Details can be sent via email to covid.inf@grmc.gu or fax (ATTN: Merlita Sheafer) to 671-969-4874. **Information must include: referral, informed consent form, covid positive result, and clinical record.** Upon receiving and confirming information, a scheduling coordinator will contact the patient to schedule an appointment for sotrovimab infusion services.

Patients are advised not to walk in to GRMC for sotrovimab infusion services without an appointment.

Tiyan COVID-19 Outreach Appointment-Based Testing

Community COVID-19 testing at the old carnival grounds in Tiyan, Barrigada has transitioned to an appointment-based system with extended hours. Unscheduled drive-ups will be accepted on a limited basis. **For the safety of the community and swabbers, only four (4) adults per vehicle are allowed to be tested.** To schedule an appointment, visit tinyurl.com/covidstopswithme.

DPHSS continues to support diagnostic testing for COVID-19 but will be prioritizing COVID-19 testing to target individuals with a likelihood of severe disease, hospitalization, or death due to COVID-19. The DPHSS [Screening Guide Memorandum](#) further adjusts the criteria for who may get tested for COVID-19. [CLICK HERE to view the guide.](#)
